

CHAMBERQ

Clinic operations for Chattogram Best
Physiotherapy Hospital

PRODUCT PROPOSAL

Your hospital — quieter halls, clearer serials, and a
site that already feels like CBPH.

Prepared for **Chattogram Best Physiotherapy Hospital**

August 2026

INTRODUCTION

Date: August 2026
To: The CBPH team — Panchlaish, Chattogram
From: Joy Chowdhury, ChamberQ
WhatsApp: 01818-614349
Subject: ChamberQ for Chattogram Best Physiotherapy Hospital

Dear CBPH,

This is not a generic clinic brochure with your name pasted on. It is how **your** hospital — your therapists, your female department, your Panchlaish rooms — would run on ChamberQ: quieter halls, clearer serials, and a website that already feels like CBPH.

Inside: your digital front desk, a morning with your patients, what stays shared across CBPH and what stays personal to each therapist, how home programmes go out, what we build with you, and clear pricing.

Sincerely,

Joy Chowdhury

ChamberQ · WhatsApp 01818-614349

SECTION 1

YOUR DIGITAL FRONT DESK

We set ChamberQ up as CBPH's front door — so someone searching for recovery in Chattogram lands somewhere that feels like you.

1. YOUR WEBSITE

For: Families discovering CBPH online

CBPH colours, logo, story, treatments, team, reviews, FAQ, and Book — your face for Panchlaish, not a template hospital.

2. BOOKING ON THE PHONE

For: Patients booking Antar, Batia, Eazdani, or any of your team

They take a serial for the therapist they came for. No app. No password to remember.

3. A TICKET

For: Patients who share updates with family on WhatsApp

Save, print, or forward. Shows roughly when to come, and who is being called now.

4. YOUR WAITING-ROOM SCREENS

For: Your halls and cabins

Each sitting has its own board. Reception controls the call. The screen always shows today.

5. YOUR STAFF & THERAPIST SCREENS

For: Reception and every physiotherapist

Notes, home programmes, follow-up — the cabin side of CBPH's day.

SECTION 2

A MORNING WITH YOUR PATIENTS

One family's day at CBPH — then the same calm across Antar's cabin and the therapy suite.

1. YOUR CBPH PAGE

Target: A stroke patient's daughter

She sees stroke rehab, pain & paralysis, sports injury — and faces she recognises: **Dr. Antar Das**, **Batia Nahar Ahsan** (Female Dept.), **Dr. Mohammad Golam Eazdani**.

2. BOOK BATIA'S EVENING

Target: Female department sitting

She picks Batia's evening, tomorrow's date, and mother's phone. If father already booked Antar on that number, she chooses **who** this visit is for.

3. SERIAL TICKET

Target: The family on WhatsApp

A ticket with a serial. Reopen anytime, or type the phone into your portal.

4. YOUR WAITING ROOM

Target: Reception's bookmarked TV

When her number is called, the screen updates — and can chime or announce.

5. THERAPY IN THE CABIN

Target: Batia's room

Her number is called, therapy happens — then the next serial is ready when the cabin is free.

6. PLAN HOME

Target: Batia's home programme

Print, or a short WhatsApp / SMS link for 48 hours — exercises and follow-up on the family's phone.

SECTION 3

SHARED HOSPITAL DESK - EACH THERAPIST'S ROOM

One counter for every cabin. Inside each cabin, Antar's world and Batia's world stay separate.

ONE FOR ALL DOCTORS

SHARED ACROSS CBPH

- One Live Queue Control — switch Antar → Batia → Eazdani
- Walk-ins onto the right therapist's sitting
- Outdoor TVs — one link per sitting; boards never mix
- One CBPH website for the whole hospital
- Closed days & reports for the practice

ONE FOR EACH DOCTOR

PERSONAL TO EACH THERAPIST

- Their sittings, serials, and TV
- Consult Screen — only who is in their cabin
- Notes & history stay with them
- Home programmes under their name
- Medicine favourites & message prefs
- Late / day off affects only their list

ON A BUSY DAY AT YOUR DESK

1. RECEPTION — LIVE QUEUE CONTROL

For: Your front desk

Then switch to the next therapist's sitting and do the same. Also: skip no-shows, mark late, pause, end the day.

2. IN THE CABIN — CONSULT SCREEN

For: Antar, Batia, Eazdani

Notes, exercises, medicines, follow-up — patient stays on screen so the plan can go out before the next serial.

3. PAPER PROGRAMMES & FAMILIES

For: Your real CBPH habits

Reception may type a paper slip only when that therapist says so. Husband and wife on one phone can hold two tickets — Antar and Female Dept. — without mixing queues.

SECTION 4

SENDING THE PLAN HOME

After therapy at CBPH, “prescription” is often the home programme — what to do, what to take if needed, when to return.

1. FOLLOW-UP

For: Your therapists

“1 week”, “as needed”, or a date — set before the patient leaves the cabin.

2. MEDICINES

For: When a programme includes them

Searchable list, including “same as last visit.”

3. PRINT OR WHATSAPP / SMS

For: The family keeping the slip on their phone

Short link for 48 hours — medicines, advice, follow-up, vitals if recorded. Diagnosis and clinical notes stay inside CBPH.

SECTION 5

WHAT WE BUILD WITH YOU

We do not hand you empty software. We sit with you and set up your CBPH.

1. YOUR ROOMS

For: Panchlaish

Main clinic, and the therapy suite / female department room if you use them separately.

2. YOUR PEOPLE

For: Your physiotherapists

Profiles for your team, each with their own login where they need it.

3. YOUR SITTINGS

For: How you actually sit

Morning / evening the way you run them — with a daily cap you choose.

4. YOUR DESK & TVS

For: Reception

Live Queue Control; one TV bookmark per sitting you run.

5. YOUR VOICE ONLINE

For: The CBPH site

Treatments, team, reviews, FAQ, Book — on the page and in the header.

6. YOUR MESSAGE HABITS

For: Each therapist

Who gets SMS confirmation, who sends plans on WhatsApp — their choice.

You already have a CBPH-shaped preview in our product. Go-live is making that **yours** — your numbers, your rooms, your people.

SECTION 6

KEPT SIMPLE ON PURPOSE

A few things stay light — so go-live does not force new habits on your families or your package sales.

1. THERAPY PACKAGES

For: How you sell multi-session programmes today

Packages stay how you sell them. Each visit still takes its own serial in ChamberQ.

2. FULL EXPERIENCE WITHOUT SIGN-UP

For: Families on WhatsApp

Book, follow the ticket, check by phone, receive home-plan links — no password to forget.

SECTION 7

INVESTMENT

We set everything up with you. No technical team needed on your side.

THIS PROPOSAL · CLINIC

Clinic

For CBPH — multi-therapist hospital

₹7,500/month

One-time setup ₹75,000

- Your CBPH account, rooms, sittings, logins
- Branded site in your voice
- Live queue, tickets, therapist screens
- Prepaid SMS when you want it
- Walkthrough of a real queue-and-consult day

SMS (OPTIONAL)

Confirmations debit credits when your wallet has balance. Empty wallet skips SMS — the booking still succeeds. We bill you directly (bKash / bank). Any discount we agree on WhatsApp is confirmed before you pay.

CLOSING

WHENEVER YOU ARE READY

We go live together — soft launch beside your current phone booking, no big-bang day required.

HOW WE GO LIVE

1. You tell us which therapists and sittings start first
2. We build your CBPH site, schedules, and logins
3. Short training — reception on the boards and TVs; therapists on consult and home plans
4. Soft launch beside phone booking
5. Everyday: your desk runs the halls; your therapists see the right patient in the cabin

RECOMMENDED NEXT STEP

1. Message me on WhatsApp: **01818-614349**
2. We walk **your** flow live on CBPH
3. We lock the first therapists and sittings, and give you a simple go-live checklist

When it is working, families ask “when should we come?” less, the waiting area feels fairer, and CBPH looks as organised online as you are in Panchlaish.

With respect,

Joy Chowdhury
