

MAESTRO

For Dr. Shamim Ahmed's chamber practice

PRODUCT PROPOSAL

Your diabetes & medicine chamber — clearer
serials, a waiting-room screen that matches your
sittings, and a portfolio site that already feels like
you.

PRODUCT PROPOSAL

INTRODUCTION

Date: August 2026
To: Dr. Shamim Ahmed — Diabetes & Medicine Specialist
From: Joy Chowdhury, ChamberQ
Subject: ChamberQ Maestro for your chamber

Dear Dr. Shamim,

Your Belle Vue mornings already fill Room 311. Families still call for serials. The waiting area gets loud. By the time you sit at Labaid, you have already spent energy managing the queue instead of the consult.

ChamberQ is built for that day. Patients book the sitting they need, keep a ticket on their phone, and see whose number is being called — so fewer “when will it be my turn?” questions at the desk. You and your assistant run one clear queue board. Inside the chamber, notes and prescriptions stay with you — then a clean slip can go home on WhatsApp when you are ready.

This note walks through how that would feel for **your** chambers — Belle Vue and Labaid — and what Maestro includes.

Sincerely,

Joy Chowdhury

ChamberQ

SECTION 1

YOUR DIGITAL FRONT DESK

We set ChamberQ up as your front door — so someone searching for diabetes care in Chattogram lands somewhere that feels like you.

1. YOUR PORTFOLIO WEBSITE

For: Families discovering you online

Your story, your chambers at Belle Vue & Labaid, FAQ, and Book — so families find you, not a template hospital.

2. BOOKING ON THE PHONE

For: Patients who already call 01333-709771

They take a serial for the sitting they need — morning at Belle Vue, evening when you sit, or Labaid. No app. No password to remember.

3. A TICKET

For: Patients who share updates with family on WhatsApp

Save, print, or forward. Shows roughly when to come, and who is being called now.

4. YOUR WAITING-ROOM SCREEN

For: Belle Vue Room 311 — and any other chamber you run

Each sitting has its own board. You or your assistant controls the call. The screen always shows today.

5. YOUR CONSULT SCREEN

For: You in the chamber

Notes, medicines, follow-up — the clinical side of your day, under your name.

SECTION 2

A MORNING WITH YOUR PATIENTS

One family's day with you — then the same calm across your Belle Vue and Labaid sittings.

1. YOUR PORTFOLIO PAGE

Target: A daughter booking for her father

She sees diabetes & medicine care under your name — and recognises Belle Vue, Probortok Hill.

2. BOOK YOUR MORNING SITTING

Target: Sat–Thu, 11:00 AM – 2:00 PM · Room 311

She picks your Belle Vue morning, tomorrow's date, and father's phone. If mother already booked on that number, she chooses **who** this visit is for.

3. SERIAL TICKET

Target: The family on WhatsApp

A ticket with a serial. Reopen anytime, or type the phone into your portal.

4. YOUR WAITING ROOM

Target: The outdoor / hall TV for your sitting

When his number is called, the screen updates — and can chime or announce.

5. CONSULT IN ROOM 311

Target: Your chamber

His number is called, you see him — then the next serial is ready when you are free.

6. PRESCRIPTION HOME

Target: Your Rx slip

Print, or a short WhatsApp / SMS link — medicines, advice, follow-up on the family's phone.

SECTION 3

YOUR DESK - YOUR CONSULT ROOM

One Live Queue for your sittings. Inside the room, only your patients and your notes.

ACROSS YOUR PRACTICE

SHARED FOR YOUR CHAMBERS

- One Live Queue Control — Belle Vue morning, evening, Labaid
- Walk-ins onto the right sitting
- Outdoor TVs — one link per sitting; boards never mix
- One portfolio website under your name
- Closed days & reports for your practice

ONLY YOU

PERSONAL TO YOUR CONSULT

- Your sittings, serials, and TV
- Consult Screen — who is with you now
- Notes & history stay with you
- Prescriptions under your name & registration
- Medicine favourites & message prefs
- Late / day off notifies only your list

ON A BUSY DAY AT YOUR CHAMBER

1. LIVE QUEUE CONTROL

For: You or your assistant

Also: skip no-shows, mark late, pause, end the day. Switch sittings when you move from Belle Vue morning to evening — or to Labaid.

2. CONSULT SCREEN

For: You with the patient

Notes, medicines, follow-up — patient stays on screen so the slip can go out before the next serial.

3. FAMILIES ON ONE PHONE

For: How Chattogram families actually book

Husband and wife on one number can hold two tickets without mixing queues. You choose whether you run the board yourself or your assistant does.

SECTION 4

SENDING THE PRESCRIPTION HOME

After consult, the family needs a clear slip — medicines, advice, when to return — without carrying your full clinical file.

1. FOLLOW-UP

For: Your diabetes & medicine patients

“1 week”, “as needed”, or a date — set before they leave Room 311.

2. MEDICINES

For: How you already prescribe

Searchable list, including “same as last visit” — favourites learn your usual pattern.

3. PRINT OR WHATSAPP / SMS

For: The family keeping the slip on their phone

Short link — medicines, advice, follow-up, vitals if recorded. Diagnosis and clinical notes stay with you.

SECTION 5

WHAT WE BUILD WITH YOU

We sit with you and set up your Maestro chamber — not empty software.

1. YOUR CHAMBERS

Belle Vue Room 311 (morning & evening), Labaid — up to five locations on Maestro.

2. YOUR SITTINGS

Sat–Thu mornings 11–2; Sun / Tue / Thu evenings 7–9; Labaid as you sit — with a daily cap you choose.

3. YOUR DESK & TVS

Live Queue Control; one TV bookmark per sitting.

4. YOUR VOICE ONLINE

Portfolio site — chambers, FAQ, Book — in your voice.

5. YOUR MESSAGE HABITS

SMS confirmations and WhatsApp Rx links — on or off, your choice.

6. YOUR LOGIN

Your account; optional assistant access without full clinical notes (unless you allow paper entry).

Go-live = your numbers, rooms, sittings. New features roll out automatically.

SECTION 6

KEPT SIMPLE ON PURPOSE

A few things stay light — so go-live does not force new habits on your families.

1. FULL EXPERIENCE WITHOUT SIGN-UP

For: Families on WhatsApp

Book, follow the ticket, check by phone, receive prescription links — no password to forget.

2. SOFT LAUNCH BESIDE PHONE SERIAL

For: How patients already call you

Keep 01333-709771 and Belle Vue hotlines while online booking grows — no big-bang day required.

COMPARISON

HOW CHAMBERQ COMPARES

ChamberQ vs tools doctors often hear about — **eDoctorBD**, **ProtonEMR**, **RxSWBD**, **Bissoy**. ✓ yes · ✗ no · Part. partial

Feature	ChamberQ	eDoctor	Proton	RxSWBD	Bissoy
Your front door

SECTION 8

INVESTMENT

We set everything up with you. No technical team needed on your side.

THIS PROPOSAL · MAESTRO

MAESTRO

For one doctor — up to 5 chambers, with outdoor TV

₹3,000/month

One-time setup ₹15,000

- Your Maestro account, chambers, sittings, login
- Portfolio website in your voice
- Live queue, tickets, outdoor screen, consult screen
- Prepaid SMS when you want it
- Walkthrough of a real queue-and-consult day

SMS (OPTIONAL)

Confirmations debit credits when your wallet has balance. Empty wallet skips SMS — the booking still succeeds. We bill you directly (bKash / bank). Any discount we agree on WhatsApp is confirmed before you pay.

CLOSING

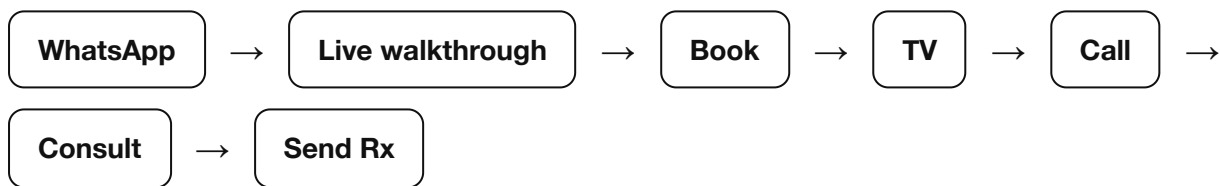

WHENEVER YOU ARE READY

We go live together — soft launch beside your current phone serial, no big-bang day required.

HOW WE GO LIVE

1. You tell us which chambers and sittings start first (Belle Vue, Labaid, or both)
2. We build your site, schedules, TV links, and login
3. Short training — queue board and consult / prescription
4. Soft launch beside phone booking
5. Everyday: clearer serials in Room 311 — and at Labaid when you sit there

RECOMMENDED NEXT STEP

1. Message me on WhatsApp: **01818-614349**
2. We walk **your** flow live
3. We lock the first sittings, and give you a simple go-live checklist

When it is working, families ask “when should we come?” less, the waiting area feels fairer, and your online presence matches the trust you already earn in chamber.

With respect,

Joy Chowdhury
