

QUOTATION

MUPS Dhaka · MUPS Chittagong · Dermavilla

PRODUCT PROPOSAL

Three clinic floors on one system as it ships today —
live queue, digital prescriptions, stations, referrals,
and HR. Not a hospital HIS.

Prepared by **Beyak Branding**

THREE CENTRES

YOUR CLINICS ON ONE SYSTEM

MUPS already runs two locations. Dermavilla is a third floor with its own doctors and brand. This quotation is clinic software for that — more than one doctor, more than one room, labs on the same booking. All three centres sit on the same plan, as it ships today.

MUPS

TWO LOCATIONS

Dr. Moin Uddin Pain Solution — Dhaka and Chittagong. Consult rooms, visit rooms, intervention rooms, and the till that splits across them.

DERMAVILLA

ONE CENTRE

Dr. Nusrat Sultana Urmi — same plan: site, serials, queue, Rx, stations, referrals, HR.

1. PORTFOLIO WEBSITE UNDER EACH NAME

- Departments, doctor grid, blog, and Book
- Families find the clinic, not a hospital template
- We set up the first version; staff edit when they want

2. ONLINE SERIAL + LABS ON THE SAME VISIT

- Patient books a doctor and date
- Walk-ins stay in the same queue
- Lab tests can ride on the same booking

3. TICKET + WAITING-ROOM TV

- Live position on the phone
- One outdoor screen per sitting calls the next numbers
- English or বাংলা

4. CONSULT SCREEN + DIGITAL RX

- Notes, history, medicines, follow-up
- Print a slip or send a short link
- Medicines for the family; diagnosis stays in the consult record

WHAT THIS ADDS ON THE FLOOR

The extras a pain clinic and a skin clinic actually use — not an OT diary or a pharmacy warehouse.

5. MULTIPLE DOCTORS, UNLIMITED CHAMBERS

- Associates in one system
 - Each doctor's notes stay private
 - No five-location cap
-

6. STATIONS — ROOMS, FEES, HANDOFF

- Consult, visit, and intervention rooms (the MUPS pattern)
 - Fee catalogue, split till, and vouchers
 - Visit → intervention so a consult can send a patient to a procedure room without rewriting the file
-

7. REFERRALS

- Outside GPs and commissions
 - A small amount per visit, a larger amount per intervention
 - Month-end envelopes match the book
-

8. HR & PAYROLL

- Attendance and leave
 - One salary record per person per month
 - Optional post to the chamber cashbook so the till and payroll do not drift
-

9. TILL, ROSTER, REPORTS, NOTICES

- Collect fee at the chamber
 - Daily roster
 - Day / week / month numbers
 - Booking, late, cancel, and Rx notices by SMS and/or WhatsApp
 - SMS uses a prepaid wallet; booking still works if it is empty
 - We keep a backup of the clinic's data as part of the monthly fee
-

HOW A SITTING ACTUALLY RUNS

Same loop at MUPS Dhaka, MUPS Chittagong, and Dermavilla — patients book or walk in; staff run one sitting at a time.

PATIENT PATH

From the family's phone — no sign-up, just their mobile number.

AT THE DESK

Live Queue Control — one screen for the whole sitting.

Think of it as three shop floors with the same queue board, till, and staff roster — not a hospital ward system.

Not in this proposal today

- Hospital IPD / emergency / OT theatre / pharmacy stock
- Online patient payment
- Bangla homepage (paid add-on)
- SMS credits (prepaid, extra)
- If we ship a new module later and you want it, we add it at no extra charge

INVESTMENT

SOFTWARE FOR THREE CENTRES

We set everything up with you. A typical single centre is ₳75,000 setup and ₳7,500 / month. This package covers all three centres at the figures below.

THIS PROPOSAL

THREE CENTRES

MUPS Dhaka · MUPS Chittagong · Dermavilla

₳4,500/month

One-time setup ₳1,20,000 · all three centres

- Done-with-you setup — branding, chambers, doctors, staff, stations, logins
- Every module listed here, including stations, referrals, and HR
- Hosting and backup of your clinic data — included in the monthly fee
- Walkthrough of a real queue-and-consult day at each centre
- New modules later — we add them for you at no extra charge, whenever you want them

70% of setup to start; 30% at go-live. Monthly from the month after go-live. SMS credits extra. Custom domain (if you want one) is registered by the clinic; we point it at the live site.

CLOSING

WHENEVER YOU ARE READY

Soft launch beside the current phone booking — no big-bang day required.

HOW WE GO LIVE

1. Lock doctors, rooms, and sittings for MUPS Dhaka, MUPS Chittagong, and Dermavilla
2. We build each centre's site, schedules, stations, and logins
3. Short training — desk on the boards and TVs; doctors on consult and Rx
4. Soft launch beside phone booking

RECOMMENDED NEXT STEP

1. Message us on WhatsApp: **01329-877557**
2. We walk **your** MUPS / Dermavilla flow live
3. We lock the first sittings and give you a simple go-live checklist

This quotation is valid until **23 August 2026**. Source code is not handed over. Clinical records belong to the clinic; we keep a backup of that data. Custom one-off work is extra. New modules we ship later are added at no extra charge, whenever you want them.
